FOR IMMEDIATE RELEASE

L2 Consulting Services, Inc. Receives AS9100D Certification

Dripping Springs, Texas – February 20, 2018 - L2 Aviation is proud to announce the company's Quality Management System Certification has upgraded to AS9100 Revision D (AS9100D). The AS9100D Certification is a standardized quality management and quality assurance system specifically developed for the aviation, space and defense industry sectors. Through two consecutive audits, L2 achieved zero non-conformance reports, which is a testament to the company's ongoing dedication to maintaining high-quality industry standards and processes. The L2 audits were conducted by Michigan-based Perry Johnson Registrars and were completed on *(Date?)*. Out of a list of over 450 certified AS9100 aviation companies, L2 is just one of a handful to currently achieve the AS9100D status.

"L2 is devoted to providing best-in-class avionics integration services and products for our growing list of commercial and military customers around the world," said Mark Lebovitz, L2 President. "The AS9100D certification is a globally recognized mark of excellence for which we take immense pride in attaining."

While incorporating the full ISO 9001 standards of quality management and assurance, the AS9100D certification and compliance is often a prerequisite of doing business with most major aerospace OEM's and suppliers worldwide.

"L2's successful completion of the AS9100D certification audits, without any non-conformity reports, speaks volumes about our company's core mission and the professionalism of our team members," L2 Vice President of Operations, Dean Rudolph stated.

The AS9100D Quality Management System Certification covers such standardized items as requirement conformance measurement, risk management, delivery performance, product safety, and operational processes.

About L2
